BUSINESS TECHNOLOGY DEVELOPMENT EXECUTIVE

Innovative and performance- driven achiever with high expectations and standards ready to bring a firm to the next level of success, significantly increasing growth and profitability.

PROFESSIONAL PROFILE

- Multilingual, global Business Executive spearheaded the development of a system wide multi-process schedule/workflow application designed to streamline and enhance performance; this patent pending application improved performance by over 40% and was named the organization's most innovative technology project in 2006.
 - Designed modules to port information to a new reporting infrastructure; this conversion saved the organization over \$4 million in operational costs.
 - Fluent in Tamil, Hindi and English.
-

PROFESSIONAL EXPERIENCE

SACKETT AND CO., New York, New York • 1999-Present

Vice President (2005-Present)

Serve as a leader in charge of developing and enhancing the organization's technological infrastructures including project management, client services and profile functions, trade, exception and reporting systems, maintenance, upgrade, on-demand and high performance reporting.

DELIVERED RESULTS:

- Led a team of eight technological experts and developed a leading edge solution to the organization's schedule/workflow processes; this program, based on in-memory graphing techniques maintains dependencies, streamlines reporting functions and increases system performance.
- Prepared and presented the client's 2006 Technology Budget; performed a comparative analysis and collaborated with the client to determine the organization's priorities, short and long term goals.

Senior Programmer Analyst (2003-2005)

Formulated and defined the scope, approach, and objectives for the organization's technology projects.

DELIVERED RESULTS:

- Researched, analyzed, and recommended top technology products.
- Spearheaded impact assessments and led several teams of experts while working on critical projects.
- Identified the PDF engine "Aware" and implemented its use, which resulted in increased speed of report generation (20 times) and a savings of over 70% compared to the previous reporting engine.

Senior Programmer Analyst, Continued

DELIVERED RESULTS:

- Led the design and development of a framework division-wide and led the development of
- Enterprise JavaBeans (EJB) technology.
- Integrated and enhanced the databases used throughout the organization.

Programmer Analyst (2001-2003)

DELIVERED RESULTS:

- Consolidated reports, implemented risk reports and delivered reports in a variety of formats.
- Devised a method for on-demand reporting and led a team of four in providing real-time reporting.

New Associate Programmer Analyst (1999-2000)

DELIVERED RESULTS:

- Planned and managed a conversion that saved the organization over \$4 million in operational costs.
- Developed and implemented modules to port information to a new reporting infrastructure.

HCL COMMUNICATIONS LTD., New Delhi, India • 1995-1997

Senior Networking Engineer-System Integration (1995-1997)

DELIVERED RESULTS:

- Managed the satellite based terrestrial, wireless, LAN and WAN functions.
- Led a team responsible for the support of networks, internetworking and associated networking products.
- Exceeded organizational expectations.

EDUCATION

ROCHESTER INSTITUTE OF TECHNOLOGY, Rochester, New York

Master of Science in Information Technology, 2000

INDIAN INSTITUTE OF TECHNOLOGY, New Delhi, India

Bachelor of Engineering in Computer Science and Engineering, 1995

TECHNOLOGICAL EXPERTISE

Programming Languages: C, C++, Java, XML, HTML, Perl, CGI, UML

Operating Systems: Linux, Windows XP, UNIX

Networking Skills: LAN/WAN Design and Architecture
