CAREER HIGHLIGHTS

- Worked in close collaboration with team members to educate family member of child in liver failure of the necessity to update vaccinations prior to acceptance on transplant list despite child's previous reaction to a vaccination. Demonstrated the immediate need for vaccination and the child received a new liver; child completely recovered and is now thriving.
- Utilized strong clinical judgment to listen, understand situation, and rapidly respond. Cancelled home visits with other patients to immediately visit a child diagnosed with epidermolysis bullosa that experienced difficulty sleeping the night before. Called 911 for transport because child was lethargic and had difficulty breathing. Child was admitted to PICU.
- Recognized by colleagues and patients as a sensitive and caring professional who is family centered and supportive. Consistently take time to understand the family, patient, and their needs; utilize best practices when intervening to achieve optimal outcomes.

PROFESSIONAL EXPERIENCE

SUPPLEMENTAL HEALTH CARE, Milwaukee, Wisconsin 2018-Present
Home Health Registered Nurse, Interim Health Care Contract

Adhere to quality standards in the care of diverse patients with acute and chronic medical conditions in numerous home health settings. Employ strong clinical skills in diagnosing, providing care, and treating patients. Meet HIPAA requirements and maintain accuracy in charting patients' condition, medications, and treatment using the organization's electronic medical record system.

- Applied solid clinical judgment in performing home health outcome and assessment (OASIS) reviews; documented care plans, physician orders, clinical assessments, and required information to ensure accurate reporting.
- Monitored patients' progress, administered medications and infusion therapy, and managed wound care.
- Educated patients and families on treatments, medications, and disease processes.

DSAVITA, Milwaukee, Wisconsin

2017-2018

Acute Dialysis Charge Nurse

Delivered quality care to diverse patients. Expertly performed nursing assessments. Initiated treatment in accordance with physician orders, including administering medications, monitoring lab draws, and performing post-treatment assessments. Coordinated patient care with cross-functional team members.

- ▶ Oversaw quality of care across the unit; engaged in treatment review, confirmed accuracy and adequacy of treatment, and ensured the safety of all patients.
- ▶ Met the unit's operational needs by analyzing workflow, maximizing resources, and delegating assignments to staff.

CANASTRA HEALTH CARE, Milwaukee, Wisconsin

2016-2017

Post-Acute Home Health RN

Observed the unit-based quality assurance program while providing safe and quality care to post-acute and acute patients, including pediatric population during home health visits. Initiated in-depth assessments, developed plans of care, and planned patient discharges from the home health agency. Applied expertise to engage in pharmacological and non-pharmacological management and treatment of a wide range of disorders and diseases. Collected blood, tissue, and other laboratory specimens and prepared for lab testing. Worked in collaboration with other professionals to coordinate patient care. Complied with HIPAA requirements in delivery of care.

- ▶ Engaged in counseling in health maintenance and disease management; provided comprehensive teaching, supervision, and counseling of patients and families to achieve optimal results.
- ▶ Demonstrated a wide range of skills in working with disabled children and adult patients.

AVILLA, Brasília, Brazil

2015-2016

Charge Registered Nurse

Oversaw upward of 50 patients per shift at this skilled nursing dementia facility. Led team of 8 and support staff in the delivery of patient care. Applied leadership strengths to maintain high staff morale and professionalism across the unit.

- ▶ Utilized nursing best practices to develop in-depth patient care plans, including assessments, evaluations, and nursing diagnoses.
- ▶ Practiced in caring for patients with diverse medical conditions, including Parkinson's, dementia, diabetes, cancer, and Alzheimer's.

AA CLÍNICA, Brasília, Brazil

2012-2014

Registered Nurse, Neonatology/Lactation Support

Engaged in all aspects of primary care; skillfully assessed and evaluated neonatal and pediatric patients. Delivered on-call care.

- ▶ Ensured safe and quality care in developing patient care plans, including assessments, evaluations, and nursing diagnoses.
- ▶ Instructed and educated patients and family members on proper discharge care.

PROFESSIONAL AFFILIATIONS

Member, NAPNAP

Member, Golden Key International Honour Society

"Etti Simon is one of the few nurses I would put 100% of my trust in to care for my patients. I believe she will be an asset to any facility she is associated with. Her ability to connect with her patients and family has given her the ability to provide care for patients when other nurses have failed." – Allison Smith, Administrator, Supplemental Health Care Inc.
