PROFESSIONAL EXPERIENCE

DC HOPE MEDICAL CENTER, Duarte, California

March 2016-Present

Registered Nurse, Medical-Surgical Oncology Unit, 2017-Present

- » Adhere to rigorous standards while providing the highest quality care to hematology and solid tumor oncology patients, including IV administration, central line care and maintenance, and accessing implanted ports.
- » Develop individualized care plans that meet patient goals; assess patient response and efficacy of treatment and medication administration.
- » Utilize exceptional clinical skills in administering chemotherapy and biotherapy treatments.
- » Collaborate with healthcare team members to address patient needs.
- » Educate patient and family on disease process, treatment plan, and patient progress. Maintain accurate electronic medical records documenting care provided and patient progress.

Selected Achievements

- » Recognized by senior leadership with the Practice Program Award, a program that supports the professional nursing practice by recognizing RNs that demonstrate oncology nursing excellence through professional contributions.
- » Tapped to engage in quality improvement projects focused on reducing central line associated blood stream infections (CLABSI) rates.
- » Promoted educational resources that demonstrated best practices in reducing CLABSI.
- » Partnered with team to renovate DC Hospital A's showers.
- » Demonstrated outstanding clinical skills and leadership acumen, which resulted in selection to serve as the Chair of Quality of Safety Central Council.

Key Accomplishments

- » Conducted quality audits to improve the nursing practice and confirm compliance to safe care rules and regulations.
- » Played an instrumental role in increasing staff education and promoting documentation of safe patient care.
- » Worked in collaboration with nursing administration to plan and organize the council's monthly agenda.
- » Co-facilitated and co-led council meetings.
- » Encouraged members' professional development by mentoring for leadership roles within the council.
- » Selected by senior leadership to serve as the Unit Based Council Member.
- » Fostered collaboration, promoted open dialogue, and engaged members in making improvements within the unit. Collaborated across the unit in planning and implementing projects.

- » Identified and implemented interventions that improved nurse sensitive indicators.
- » Remained well-informed and educated; obtained the Wound Treatment Associate (WTA) certification at DC Center in 2019 and the Oncology Certified Nurse (OCN) certification in 2018.

Patient Care Assistant - Intensive Care Unit, 2016-2017

- » Delivered quality care and assisted in patients with bathing, personal hygiene, perineal care, incontinence care, feeding, and dressing.
- » Adhered to protocols in monitoring and documenting patients' vital signs, intake, output, height, and weight. Supported patients with limited mobility in ambulation, moving, lifting, and transferring.

Selected Achievements

- » Worked in collaboration with supervisors, nurses, and peers to report changes in patient health status.
